25X1 were previously reported. The movement of an element of the unidentified engineer regiment of the CSFG to the Tangerhustte area was probably connected with the often reported assembling of engineer units of the GSFG and engineer units of various armies which concentrated in the Burg - Ferchland section of the Elbe River in conjunction with the fall maneuvers of the Third Shock Army. On about 22 September 1954, motor vehicles and equipment of the unidentified engineer regiment of the GSFG from Bernburg were observed at Letzling Heath and to the north during field exercises which, besides other units, were held by the reinforced 7th Gds Tk Div. The troop trains from Bernburg on 13 September 1954 probably carried the engineer unit to the above field exercises. 25X1 Comment. The troop trains are another indication that dischargees from the GDR were renatriated as early as in late September 1954. 25X1 25X1 Comment. The troop trains which carried components of the 10th Gds Tk Div to the division maneuvers were previously reported. The maneuvers began in the Cottbus - Forst drea after 22 September 1954. 25X1 Corment. On 5 October 1954, four troop trains were loaded at the Stendal railroad station with components of the 32d AAA Div and went eastward. 25X1 The units had participated in the maneuvers of the Third Shock Army. Observations on the Loewenberg-Templin railroad line indicated that the light units probably returned to Kuestrin leaving Berlin to the south, while, according to the present report, the medium units were transported to Frankfurt/Oder leaving Berlin to the north. 25X1 Corment. The arrival of air force soldiers was previously reported. . They probably will relieve the personnel of the air force technical school at Doeberitz. 25X1 Comment. Besides the air force technical school, an ordnance depot of the ground attack corps is possibly also stationed at Doeberitz. The shipment on 7 October 1954 probably was consigned to this installation.

Comment. The railroad cars which were made available by the Magdeburg railroad district headquarters were used for the transportation of troops after termination of the maneuvers of the Third Shock Army,

SECRET,

and for the present personnel exchange movement.
